HEALTH  
CLINIC

CHIROPRACTIC & ALTERNATIVE MEDICINE

**ABOUT DR. HEISE**

Dr. Heise graduated from Logan College of Chiropractic in 1968 as a Board Certified Chiropractor and received further postgraduate specialization as a Board Certified Diplomate in Clinical Nutrition. He is now nationally recognized as a referral doctor for Premier Research Laboratory with advanced level training. He has treated thousands of patients of all ages throughout Florida and many other areas of the United States.

**AT THE AGE OF 59,**  
I was diagnosed  
with stage IV Non-  
Hodgkin’s Lymphoma,  
affecting the blood,  
bones, and spleen.

Now at nearly 65 years of age, I continue in great health, cancer free. The journey from those frightening days to my current wellness status is significant because I was treated using Alternative Methods.

Christians believe a perfect and Sovereign God created this marvelous body. We are fearfully and

wonderfully made. God designed it with the ability to heal itself. You will see we have largely neglected to tap into this outrageously powerful system of healing energy and intelligence He breathed into our body.

Furthermore, there are Alternative strategies which increase the successful treatment of the immune-compromised cancer victim, also avoiding morbidity problems from drugs (chemo), radiation and surgery. More importantly, these techniques offer more hope to resolve the underlying problems of cancer, allowing the body to heal itself by restoring immunity, even during or after surgical removal of some of the cancer.

Allopathic medicine is an atheistic, evolutionary, mechanistic treatment not intended to heal, with side effects that could do more harm than good by placing foreign and lifeless chemicals in the body. Frankly, we cannot buy our health on a drug store shelf. We may manage some symptoms but never heal because only the Creator heals through His Laws. He is the Physician.

# Cancer and Disease

## SICKNESS IN THE UNITED STATES

is at an all time-high, continuing to increase in many areas.

Some say that conventional treatment increases longevity, but it can be argued that this is actually the result of earlier detection diagnosis, not successful therapies. Nonetheless, after all these many years and billions of tax and philanthropic dollars, we are fighting these battles unsuccessfully with NO positive improvement in mortality in the last 30+ years. The frightening fact: the stats are worse. The truth is that we are generating more chronic and degenerative diseases than ever before. The philosophy of the American health care system is mired down in a treatment paradigm of using lifeless chemicals and other non-healing therapies which mask the symptoms of disease without curing the underlying cause or assisting any genuine healing response.

This fundamentally violates the Laws of Life and Health set in our DNA by our Creator who formed the human body and established unchanging rules as a guide to genuine health and wellness. Our country's medical establishment has violated these powerful Laws long enough with a culture of drugs and lifeless chemicals. In addition, we are exposed to more than 80,000 toxic chemicals in our environment. It's no wonder our powerful, microbe-fighting immune system has been suppressed, allowing unwelcome bugs/germs and pathogenic microbes to bombard and damage the chromosomes and the critical DNA/micro RNA of the human cell. The result: an uncontrolled cell duplication that acts like an infection out of control. This toxic chemical environment and assault on our health has placed our nation behind 30 other countries in overall health. Yet, the United States spends more on health care than these 30 countries combined. The science of modern medicine is continuing to invest more research dollars into this same paradigm of more drugs, keeping us from tapping the source of Life and Health.

# The Science of Vitalism

## GENUINE HEALTH

can be found by taking a broader creationist or vitalistic view.

Years ago, Dr. Max Gerson began research in Germany to treat and help the body to cure itself of cancer and chronic disease. He was finding significant success until he had to flee Hitler's regime. Upon coming to America, he continued his pursuit of developing additional cures.

Eventually, he successfully treated a member of the Albert Schweitzer family, bringing Dr. Gerson into national notoriety amidst much controversy and false accusations from the medical establishment and its hierarchy. Today, however, many of his principles and protocols live on, forming the foundation of effective alternative therapies. Not surprisingly, these echo the writings of Holy Writ (the *Bible*), which contains the foundational truth that God has Laws in the physical realm to meet the physical needs of the body He created. He did not create us and then desert us.

THIS  
TOXIC  
CHEMICAL  
ENVIRONMENT  
AND  
ASSAULT  
ON OUR  
HEALTH  
HAS PLACED  
OUR NATION  
BEHIND  
30  
OTHER  
COUNTRIES  
IN OVERALL  
HEALTH.

# Do You Really Believe in Creation?

**YES, IT TAKES A WATCHMAKER TO MAKE A WATCH** and a Creator to create a human body, so the idea of evolution and rationalism is a cunningly devised fable.

**OUR BODIES** have not evolved through 4 billion years of chance molecular encounters, aided by no guiding principle except properties of atoms themselves. Life is much more than a purely chemical phenomenon, so the bionic idea of a drug fix for our complex biochemistry falls far short of the Creator's plan as outlined in Scripture. We have a soul, a vital spark and that subtle something that set living matter apart as a dependent complex process.

In this ideological battle, the proverbial "who's in charge here?" begs two conflicting principles.

**SATAN**, the father of lies, rules with falsehood. His lies pervade all aspects of life: physiology, psychology, sociology, history, anthropology, morality and creation. His classic lies are:

- *Life is random...* You have no reason or purpose to exist. No divine plan for the future or present because there's no one in charge. Do you actually believe that?

- *There is no truth.* There is no biblical authority. If there is truth, it is relative. There is no moral Law or absolute. The *Bible* is not the true, infallible, inerrant Word for directions on living, spiritually or physically, and therefore God did not create us.

So, while political debate in health care moves health care dollars around, it has failed to construct health care on Creator principles. Mechanistic medical science is embracing a lifeless evolutionary model for the physical needs of a divinely created system. It will not succeed.

The *Bible*, on the other hand, says in Acts, "In Him we live, move and have our being..." The book of Job says... "The Spirit of God has made us. The breath of the Almighty has given us Life." We are much more than a chemical automaton, and the promise for a health fix for the human malady can only be achieved by tapping into a divinely created resource congruent with a body of knowledge given to us by our

Creator and found in that Owner's Manual, His Living Word. Psalms 119 says the Law of God is perfect... prophetically, spiritually, morally, socially as well as physically. Psalms 119:89... "it is settled in heaven." It cannot be any more reliable or trustworthy.

Moses, under God's divine inspiration, said in Exodus 15:26, "If you will give earnest heed to the voice of the Lord your God, and do what is right in His sight, and give ear to His commandments, and keep all His statutes, I will put none of these diseases on you which I have put on the Egyptians; for I the Lord am your Healer." Egypt, at that time, was representative of the world's system or culture and not God's ways. Currently, in today's culture, a war in human physiology and health is being fought with the destructive effects of a humanly contrived health care system, replacing God's laws of Life and Health with lifeless drugs that can do harm, cannot heal, and mask or suppress symptoms.

...THE PROMISE FOR A HEALTH FIX FOR THE HUMAN MALADY CAN ONLY BE ACHIEVED BY TAPPING INTO A DIVINELY CREATED RESOURCE...

## Collision Course

**TODAY'S MAINSTREAM HEALTH CARE** culture is on a collision course with cancer, heart disease, diabetes and other degenerative diseases.

All too often, quality of life suffers with early death. The wisdom of this health care culture is on a no-win track.

Have you unwittingly bought into this “no-win” system but now want to place more faith and confidence in God’s powerful laws which have been untapped?

## Genuine Hope

**GOD WANTS TO RESCUE YOU.**

He said to Adam and Eve that He would provide “every seed-bearing plant on the face of the whole earth and every tree that has fruit with seed in it,” Genesis 1:29.

“...and you shall eat plants of the field,” Genesis 3:18.

“Furthermore, oil, to make his face shine and bread that sustains the heart,” Psalms 104:15.

To read more of God’s wonderful prescription for natural healing, please refer to the following verses: Psalms 139:14; Psalms 104:14,15; Psalms 105:35; Hebrews 6:7; Genesis 9:3; Proverbs 27:27; Genesis 2:9; I Kings 5:11.

## Research

**MORE RECENTLY,** a German quantum physicist by the name of Dr. Fritz Pop immigrated to America to conduct research at the University of California/Irvine to quantify the self-healing energy/intelligence within the human body.

He and his colleagues discovered the scientifically proven principles of energy/intelligence, later to be measured by Quantum Reflex Analysis or QRA. This university-tested technique of looking beyond blood levels to measure needs at a highly sensitive cellular level became a breakthrough to determine the specific nutritional needs within

individual organs and glands. This permits specific non-toxic, herbal-based, highly cellular resonant nutritional molecules to restore an organ’s function. While man’s wisdom cannot heal, God said He is the Physician, which means Healer. Genuine health requires His created DNA resonant nutrition from plants and trees. That is the source of life-giving molecules which our cells need to maintain or restore health and vitality. The greatest advances in wellness and health come from assisting this flow of energy from herbs which bring photoelectric intelligence and life to the cell.

The benefits of this 21st century nutritional evaluation and treatment can unlock the body’s capability for self-healing and repair, now supported by a growing number of pioneer scientists, some Nobel Laureates.

# My Miracle Experience

## MY STORY BEGINS

as an ordinary adolescent boy, the middle of five children in a middle class family living in a small country town west of Chicago.

As a young preteen, I watched my dad suffer with a very debilitating and painful arthritic condition. He suffered at times with enough pain that it would cause him to weep to get a fork of food to his mouth at dinner time. He suffered quietly; nonetheless it affected the normalcy of a home with five young children. I know it left its effects upon me. I often wondered if I would grow up without a father, a provider, because he suffered so much. Fathers are supposed to play with their children, to wrestle on the green grass, to skate on the frozen river on cold winter days and nights, to build a wood fire on the edge of the river, maybe even go camping. But Dad couldn't do any of that. He would come home from work, go off to bed and wait for dinner. In our home, every financial

resource, which was limited, went to seeking doctors and medications for relief.

**The scene of seeing my dad in constant, debilitating pain sent a surging desire in me to become one of those doctors.**

Yes, a medical doctor, the only doctor we recognized in those days. I knew there had to be the right drug or medication which they had failed to prescribe. For years he suffered without improvement. I was designated to rub his muscles and joints to give some temporary relief so that he could get some dinner and go back to bed. I often massaged him for work in the morning. My heart yearned for him to be free of pain, and in my genuine naivety, I was certain I was going to be that doctor who could help him.

Years later, my mother began

experiencing neck pain. It was suggested that she see a chiropractor. After three weeks of treatment, her pain was gone...and so was her mild adult-onset diabetes.

**Miracle #1:** They say that diabetes is supposed to be incurable—just managed. She lived decades, no longer suffering with diabetes or any of its symptoms. She began enjoying better health from that chiropractor's regular care. Eventually, the chiropractor told her to bring in her husband.

**Miracle #2:** Following a round of chiropractic adjustments with some diet and food recommendations, my father began to feel and act better. His behavior and disposition improved. He actually went from weeping in pain to laughing and telling jokes at the dinner table.

MY HEART YEARNED FOR HIM TO BE FREE OF PAIN, AND IN MY GENUINE NAIVETY, I WAS CERTAIN I WAS GOING TO BE THAT DOCTOR WHO COULD HELP HIM.

**Eventually, our chiropractor told my dad to bring me in to share what he was doing so that I might consider chiropractic as a profession.**

By this time, I was thinking seriously about my goal in medicine.

In 1963, I enrolled at Logan College of Chiropractic in St. Louis, Missouri. Understandably, I was uncertain of this strange system of health care. I wasn't brainwashed; I was ignorant. But, I could not ignore my own family's experiences, much less deny their benefits. I knew what I had to do. God was leading me into a profession that was grossly misunderstood and unappreciated, yet I had to commit to this new system.

Following graduation, my wife and I moved to central Florida to raise six daughters. All of them were given regular chiropractic care. Consequently, none of them suffered persistent colds, ear infections, chronic sickness, or the need for antibiotics. Regular, periodic spinal adjustments were paying off!

Following more than four decades of practice and my own family and professional experiences, I am more passionately committed to chiropractic health care than

ever before. I continue to see how greatly nerve supply can benefit a person's health. I learned it's not only the pinched nerves that shut down the Life to the body. Proper nutrition is vital to maintaining elite wellness. I later received a Board Certified specialty degree in Clinical Nutrition.

In November of 2005, I discovered that I had an enlarged spleen. Having a bone biopsy performed by a local oncologist, the diagnosis came back as Non-Hodgkin's Lymphoma. This was my life-threatening crisis. After some limited conventional immunotherapy to attack cancerous cells, I began an extensive routine of Alternative Medicine. I became my own patient!

**Following much prayerful research and investigation, I discovered Quantum Reflex Analysis, a technique to evaluate gland and organ dysfunction on the cellular level.**

I found heavy metals, harmful bacteria and parasites, and flukes, among other critical issues, which break the strands of DNA and allow the cells to lose control. I had to get this corrected. If there was any hope, I had to get rid of these disease-producing microor-

ganisms. This terrible condition was secretly dismantling my future.

After two years, much prayer and asking God for wisdom and direction, my immune system is functioning well! My spleen is at near normal size. The blood counts are back in normal range despite what is typically expected of this disease. In fact, quite the opposite, my body is functioning efficiently and the immune system is no longer harassed with toxic DNA-damaging poisons. God turned a crisis into a victorious solution with the help of QRA, Alternative Medicine, and His laws of life.

**Miracle #3:** I believe that my body is currently in remission. It may sound unbelievable, perhaps arrogant, but I cannot deny it worked. I am living proof that this cancerous infection would have prematurely marched me into eternity had I not made some steps of faith, using Quantum Reflex Analysis and Alternative Medicine. I now believe God has plans for me to share this message and offer hope to others who have severe health problems. As a survivor, I encourage you also to be proactive with your health needs.

**GOD TURNED  
A CRISIS  
INTO A  
VICTORIOUS  
SOLUTION  
WITH THE  
HELP OF  
QRA,  
ALTERNATIVE  
MEDICINE,  
AND  
HIS LAWS  
OF LIFE.**

# Fast Recovery from Chronic Illness

## QRA OFFERS AN ASSESSMENT TOOL

that quickly unveils the core issues in the full spectrum of gland/organ dysfunction and disease. QRA testing evaluates the “short-circuits” in the body’s organ systems and can determine the exact cell resonant nutrition which restores function and outrageous health.

Thousands of scientific studies published can help us to understand the benefits of whole food nutrition including herbs, phytochemicals and botanical foods that provide significant health benefits essential to nourishment with the best nutrition for the individual’s needs.

We invite you to experience the synergistic evaluation and treatment thru QRA technology to restore and sustain your body’s ideal cellular resonance and initiate your quantum leap to health. Please call Heise Health Clinic at **407-677-1660** to arrange your QRA test today. You may visit our web site at **www.drheise.com** to read

scientifically documented QRA research and over 50 articles on the subject. You may also read some personal testimonies of our patients’ own experiences in the testimony section.

The purpose of this publication is to give hope and encouragement to many people who may not have thought about this tremendous God-made healing resource. We claim no credit or power to heal, but give the complete glory to Him as The Physician.

# Some Conditions that Dr. Heise Treats

- Addison’s Disease
- ADHD
- Allergies
- Anxiety/Panic Attacks
- Arthritis
- Asthma
- Autism
- Auto-Immune Disease
- Auto Accident Injuries
- Back Pains
- Bipolar/Manic Depression
- Candida
- Chronic Fatigue Syndrome
- Chronic Infections
- Constipation
- Colitis
- Crohn’s Disease
- Depression
- Diabetes
- Diarrhea
- Eczema/Dermatitis/Itching
- Fatigue
- Fibromyalgia
- Forgetfulness
- Gallstones
- Gastrointestinal Disease
- Headaches
- Heart Problems
- High Blood Pressure
- Hormonal Imbalance
- Hoshimoto’s Disease
- Hyperthyroid
- Hypoglycemia
- Insomnia
- Irregular HeartBeats
- Irritable Bowel Syndrome
- Learning Problems
- Low Back Pains
- Lupus
- Memory Problems
- Neuritis
- Osteoporosis
- Paget’s Disease
- Paralysis
- Parkinson’s Disease
- Restless Leg Syndrome
- Rheumatoid Arthritis
- Seizures
- Shoulder/Arm/Leg Pain
- Sinusitis
- Strokes
- Thyroid Disease
- Tremors
- Ulcers
- Weakness

**HEISE HEALTH CLINIC** is located just west of Lake Howell Road, on Howell Branch Road. If you are arriving at Orlando International Airport, take the North exit which enters SR 436 (Semoran Blvd) and go about 12 miles. Turn left (west) onto Howell Branch Road. The office is less than a mile on the left.
